4 RIVERS

by ranchers, for ranchers

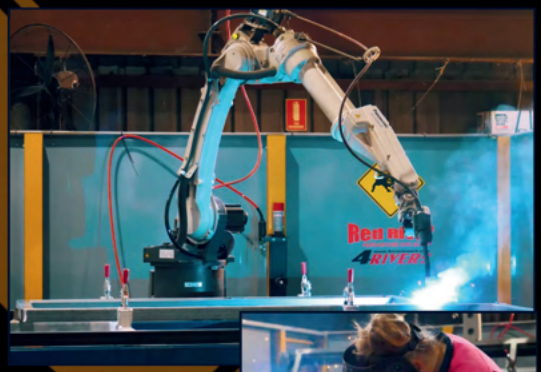

> *Built with pride, tested by time. I've had a lifelong passion for livestock handling. I will only build what I'd be happy to use on my own farm!*
>
> Andrew Lynch - Owner

Family owned, 4 Rivers, DESIGNS, BUILDS, DELIVERS, AND SETS UP
Top quality, affordable cattle corrals with safety, ease and satisfaction in mind.

DESIGN

4 Rivers provides standard designs that cater to herds of all sizes, from the hobby farmers to large commercial cattle operations. You can select from our standard packages, or we are delighted to create a customized design tailored to your needs.

BUILD

4 Rivers employs robotic technology alongside manual welding and fabrication across its various manufacturing facilities. Every component is designed and manufactured according to our high quality control standards.

DELIVER

With our dedicated fleet of 4 Rivers delivery trucks, we can provide cattle systems across America.

SET UP

4 Rivers has distinctly set itself apart by providing our customers with a delivery and setup service, ensuring peace of mind that your system is fully prepared and ready for use.

CATTLE CHUTES

"We love our chute. This is the easiest chute I've ever operated and I don't struggle trying to reach the handles. I'm only 4'11. Our horned cattle navigate through quite easily. They are thousands cheaper than the competitor. I would recommend to anyone for sure."
Angel Grace

I have been using this chute for over a year now at one of our places. I really like how easy it is to use. We have dehorned, cut, doctored, flushed for ET, also Al'd, and Trich Tested bulls. One bull weighed 1,820 pounds! The palp door on the left is split which you can close behind the animal which is very safe for the Veterinarian or Al tech. At 76 years of age it is easier for me to use! My wife says it's easier for her to use as well!
Dean Ackerman

RIVER KING

Heavier **Wider** **Stronger**

Made from Galvanized Steel
Full walk Thru Head Gate- 30 In.
Parallel Full Body Squeeze
AR Plate Locking Mechanism
Split Side Gates Both Sides

WHEEL KIT

Why a Wheel Kit?

Make your chute mobile, Equipped with a heavy duty jack, heavy-duty torsion axles, an adjustable hitch, and a jack adapter, this kit allows you to take your chute wherever it's needed. Compatible with all of our standard chutes.

I run an equine rescue and rehab. We purchased their 7 foot panels. They have been perfect for everything Round pens,Quartile pens,Stalls,Turn outs. They are sturdy and well made. I'm about to order 100 more. I'll definitely be working with this company for a very long time

Twisted Critters

PANELS & GATES

We chose 4 Rivers panels because they are horse and rider safe, well built, durable and light and the 4 Rivers team both helped in the arena design and assembly.

Dan Steers

SUPER HEAVY DUTY (SHD) RANGE

Our cattle corrals are an investment in safety, efficiency and longevity. With super heavy duty galvanized steel frames and rails, our top of the range SHD panels and gates are suited for all types of cattle. The strategic rail distribution also makes them suitable for sheep and cattle.

SHD RANGE

Specifications

- 6 oval anti-bruise rails
- 4 ½ In wide oval rail
- 2 ⅜ (OD) posts & frames
- Welded caps & feet
- 14 Gauge Galvanized steel
- All gates gussetted

Panels

Standard panel: 7ft (L) x 6ft (H)

7 foot Length Panels allows for a stronger panel, easier handling, and precise corral design

Double Hinged Gate

- 7 ft long x 8 ft tall
- Chain latch
- Double hinged for 360° swing

10ft Single Gate

- 10 ft long
- Chain latch

Slam Gate

- 7 ft long x 8 ft tall
- 2-directional slam feature
- Robust slam latch

Man Gate Panel Combo

- 7 ft long
- Chain latch

Double Gate

- 14 ft long x 8 ft high
- Chain latch
- Double hinged for 360° swing

PREMIUM HEAVY DUTY (PHD) RANGE

Our PHD range offers a cost effective, yet robust solution for large stock management. Strength is maintained by virtue of the heavy duty steel construction.

PHD RANGE

Specifications

6 x oval anti-bruise rails
14 Gauge Galvanize Steel
3 In Oval Rail
Galvanized Steel
2 ⅜ (OD) posts & frames
All gates gussetted
Welded caps & feet

Panels

Standard panel: 7ft long x 6ft tall

7 foot Length Panels allows for a stronger panel, easier handling, and precise corral design

Double Hinged Gate

7ft long x 8ft high
Chain latch
Double hinged for 360°swing

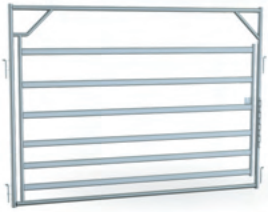

Slam Gate

7ft long x 8ft high
2-directional slam feature
Robust slam latch

10ft Single Gate

10ft long
Chain latch

Man Gate Panel Combo

7 ft long
Chain latch

Double gate & frame

14ft long x 8ft high
Chain latch
Double hinged for 360°swing

RANCHER RANGE

Our rancher range offers the most cost effective solution for herd management. Strength is maintained by the 7ft length and the 16 gauge steel construction.

RANCHER RANGE

Specifications

6 x oval anti-bruise rails
2 ⅜ Oval Rail
1 ½ In x 1 ½ In posts & frames
All gates gussetted
Welded caps & feet
16 Gauge Galvanized Steel

Panels

Standard panel: 7ft (L) x 6ft (H)

7 foot Length Panels allows for a stronger panel, easier handling, and precise corral design

Double Hinged Gate

7ft long
Chain latch
Double hinged for 360° swing

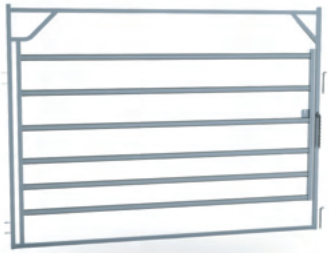

Man Gate Panel Combo

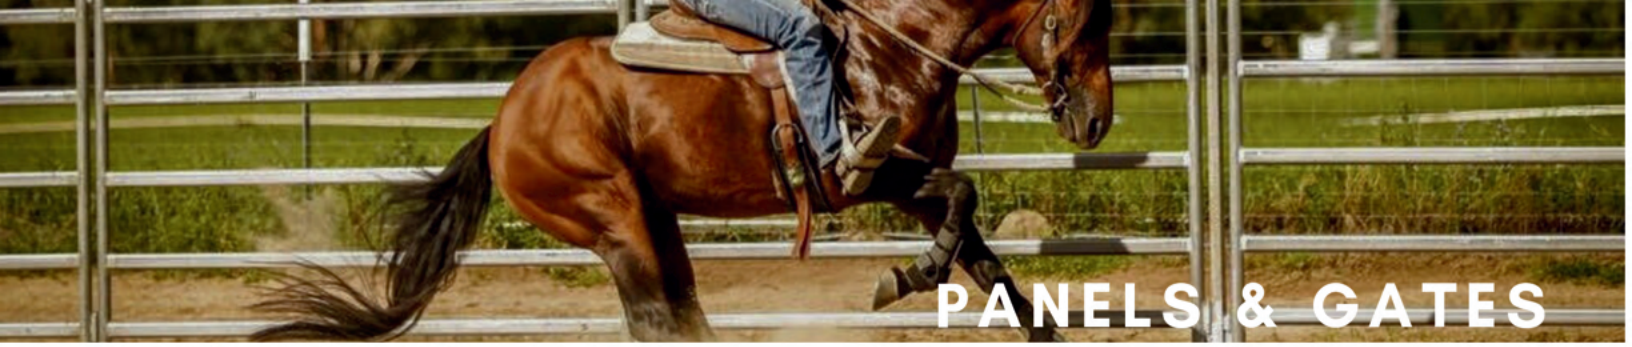

7ft Long
Chain Latch

10ft Single Gate

10ft long
Chain latch

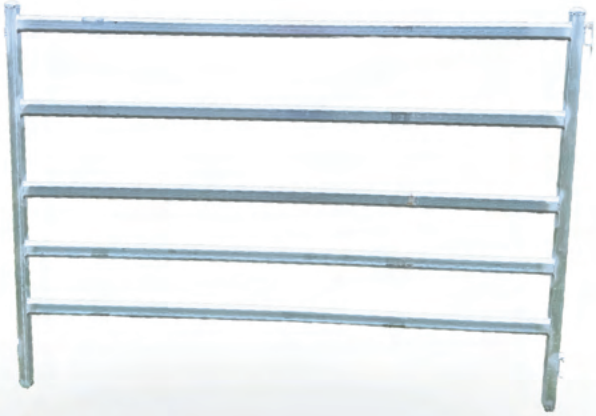

UTILITY RANGE

7ft panel length allows for smooth consistent radius when building your round pen. Panels are easily transported and handled by one person, perfect for horse arenas and quiet cattle.

GREAT FOR ROUND PENS AND AREANS

Specifications

- 5 x oval anti-bruise rails
- 2 ⅜ wide oval rail
- Galvanized steel
- 1 ½ x 1 ½ posts & frames
- All gates gussetted
- Welded caps & feet

Panels

- 7ft (L) x 5ft (H)
- 5 Rail
- 7 foot Length Panels allows for a stronger panel, easier handling, and precise corral design

Ride Through Gate

- 7ft long x 8ft 5in tall
- High clearance frame
- Chain latch

Did you know we also supply and install round pens in both our utility & rancher ranges?

- Hot dipped galvanized steel floor (height adjustable section)
- 10 ft overall length
- Height adjustable (manual)
- Suitable for other livestock

1 Ft **R** or **L** hand side walkway - **optional extra**

By far the best equipment around.
Shane Whickham

Corral Designs

ONE PERSON OPERATION

I bought a complete set of pens customized to my needs and they delivered and set it up. The quality, construction and design far exceeds my expectations. These pens replaced a set of corrals I had cobbled together with portable panels over the last decade. I wish I'd done this a long time ago. Shortly after buying that setup I bought another whole corral system and squeeze chute from them for another farm I own
Jason Robertson

TRIED & TESTED CORRAL DESIGNS

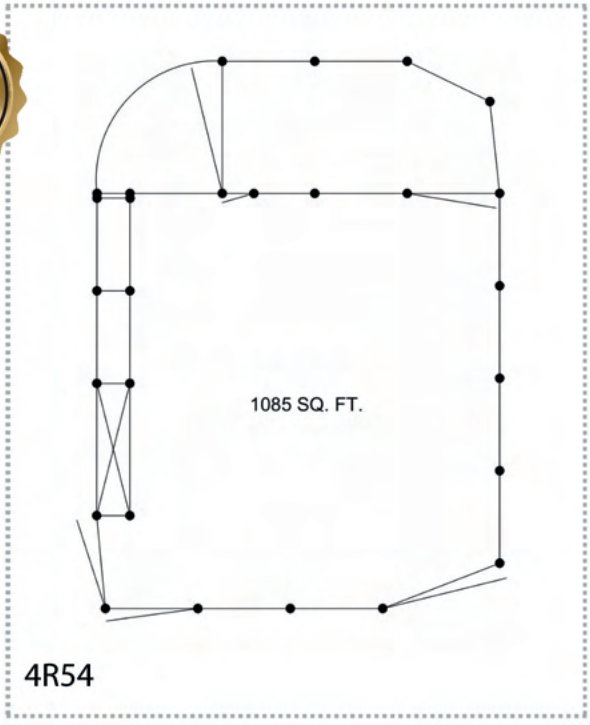

Interpreting the designs

Computer generated 3D/2D rendered drawings are a great way to get a 'feel' for how a corral will look and flow operationally. While you're still deciding on the ideal design, line drawings are often easier to interpret and make it simpler to compare the features of different yard layouts.

Key

Chute
Panel
Single gate
Double gate
Ramp
Personal access gate

4R54

When considering which design best suits your needs, the model number represents the **holding capacity**. The working capacity of these yards generally translates to ⅔ of the holding capacity. Designs can always be adjusted to suit your needs and orientation of your land.

Our designs are proven to have great flow and functionality and can grow with your herd. The addition of extra panels and gates allows you to incorporate more holding pens to increase functionality and working capacity.

Package Deal Options **Ask about special pricing!**

Package Deals are a fantastic option we offer here at 4 Rivers Ranch Equipment!
If you know you will need a new corral and chute, we've created packages made to suit every size and set up.

Simply let us know which design you're leaning towards - for example, if you like our 4R54 with a 4 Diamond, this would be called our 4R54DELUXE package. From there, we'll put together the pricing for your complete package deal.

FREQUENTLY ASKED QUESTIONS

How can I purchase from 4 Rivers?

Individual components and/or complete corrals can be purchased directly through our Head Office in **Texas**, our **Nevada** branch, or one of our **authorized dealers.** Otherwise, reach out on **844-964-4449** or **sales@4riversranch.com**

I'm not sure exactly what will work best for our property. Can you help?

Absolutely! Our team are experienced in all aspects of cattle management and would be honored to provide you with advice on a corral layout suitable to your individual budget, operational needs and farm environment.

Can I customize one of your designs?

Our unique lug design makes simple changes (e.g. extra panels, gates etc.) a breeze, and one of our sales team would be happy to work with you for more complex customizations.

Can you build my design?

Yes! Our sales team will work with you to ensure your vision comes to life. Sometimes compromises may need to be made in relation to product constraints and the proposed build environment. At times, due to unforeseen circumstances, the layout of the corral may need to be slightly adjusted during installation. The corral builder will always strive to discuss this with you beforehand.

How do I get a quote?

If you know what you want, you can request a quote directly from our **website** otherwise, chat to our sales team on **844-964-4449** or **sales@4riversranch.com**

Is financing available?

Yes! Contact us on **844-964-4449 or office@4rivesranch.com** to discuss your options.

How much deposit is required?

A deposit is not required to place an order. Payment upon delivery!

So I've made a decision, now what?

Firstly, you will receive a drawing and quote of your proposed corral for review. Our team will then work with you until the price and design are exactly right. Once accepted, your order is placed and logistics will be in touch to discuss your site preparation, our access requirements, and any other delivery & installation considerations.

Are you able to deliver my corral?

Yes! We can arrange delivery to most of the U.S. Delivery fees are calculated on an individual basis. One of our sales or logistic team will discuss this with you during the quoting process.

Can you set up my corral?

We sure can! Our delivery fee often includes our driver to assist in the setup of your new corral on a suitable site. This must be confirmed with your sales person when ordering. Conditions may apply.

How long does it take to build the corral?

Depending on the size of your corral, and site access, we can have your corral set up in around 2-6 hours, and ready for immediate use.

CLIENT

TESTIMONIAL

I have had previous opportunities to use a 4 rivers chute and it was so easy to use, especially with horned cattle. It drove me to upgrade and purchase my own 4 Rivers chute. It was just delivered last night by Devon, who was so great to work with. Delivery was so painless! Very excited to get it setup & use it for the first time. Thank you, 4 Rivers!

SAM GARRISON

CLIENT

TESTIMONIAL

Got mine delivered and setup, definitely a nice system! The chute offers so many benefits over the one that I have at my other place. You can tell that the gentleman that designed this had worked cattle before and designed it with the ranchers ease of use in mind.

On top of that, the people at 4 Rivers from the sales guy, the coordinator to our delivery guy, have been an absolute pleasure to work with!! All in all it's a significantly better setup at a better price than my other setup and they even delivered and set it up for me! 5 stars and for future projects I will definitely be back!
